

# Major Assignment

## Objective:

Create a food website named Food-Fusion. This website uses the following concepts:

- React Router
- React Redux
- Lazy Loading
- Axios ( find the API on your own and use it in this website )
- Cart Page
- Header and footer with logo
- The website should be responsive

Create a website like a Real E-commerce Food website

## Submission Guidelines

1. Deploy the React code on Netlify and Vercel.
2. If you don't know how to deploy React code on a free hosting platform, watch this YouTube video <https://youtu.be/AP0fKMrmyKA?si=wKbklcCA3rGCFDb7>
3. **Deploy Link:** Submit Deploy Link in Readme.md file of task-related GitHub repo.
4. **Readme.md:** Create the readme.md file like Professional Level, which includes only project-related content.
5. **Submission Link:** Submit the GitHub repo Link in the Submission Box.
