Implementing Functional Components with Increment and Decrement Features

Assignment -1

Here's a guide to creating a counter application using both a class component and a functional component in React. Each component will have increment and decrement functionality using "+" and "-" buttons.

Requirement Points:

- Create an attractive Ui
- The number can not be less than 0
- Give proper Heading Class and Function Component
- Show both components in ROW
- Show Main heading name "Assignment-2 Counter Application"

Submission Guidelines

1. Deploy the React code on Netlify and Vercel.
2. If you don't know how to deploy React code on a free hosting platform, watch this YouTube video https://youtu.be/AP0fKMrmyKA?si=wKbklcCA3rGCFDb7
3. **Deploy Link:** Submit Deploy Link in Readme.md file of task-related GitHub repo.
4. **Submission Link:** Submit the GitHub repo Link in the Submission Box.
